PROFILE

After 7 years of experience as a research and teaching assistantship in the field education, I am eager to further strengthen my skills in the field of web development. During my academic career, I have developed important skills such as information seeking, questioning, critical thinking, problem solving, and effective communication. I am passionate about leveraging these skills in the tech industry in creating innovative and sustainable web solutions.

WORK EXPERIENCE

- Expertise France** September, 2022 - 2023
Short Term Junior Consultant for "Improving the Employment Prospects for the Syrian Refugees and Host Communities by High-quality VET and Apprenticeship in Turkey (IMEP-VET4JOB)"
 - Facilitating preparation of technical documents, short reports, proceedings and presentations in line with the gender-sensitive and rights of the children approach
 - Assisting in developing training materials and preparing input to the implementation processes such as supporting outsourced experts and service providers
 - Preparing, following-up, updating and compiling records, documents, forms, contacts lists
 - Assisting in logistical arrangements for social cohesion activities, transportation and accommodation needs of attendees
- Middle East Technical University** December, 2015 - September, 2022
Research and Teaching Assistant
 - Preparing academic documents, presentations and reports with a specific focus on rights of children, gender mainstreaming, education for sustainability and systems thinking
 - Providing support for instructors by developing teaching materials, holding office hours, preparing and delivering learning activities, leading in-class discussions, and evaluating students' work
 - Functioning as co-researcher (data collection, data organization, data analysis) in research projects and co-writer of research reports/proceedings/presentations
 - Contacting the preschool principals for practicum courses time to time, monitoring and assessing students' practices and performance during the practicum, and providing feedbacks for them
